CHANGE FOR CLIMATE CHANGE

Climate change is already happening;

- Species are becoming extinct
- Weather systems are changing and becoming more extreme
- Our planet is getting warmer

But we all have the power to make choices and changes which will limit the impact of climate change.

CARRY ON REGARDLESS

If we don't act now to cut carbon emissions, climate experts are predicting that global temperatures will rise about 4°C this century.

Answer the **lifestyle quiz on the WWF website** to calculate your family's carbon footprint and work out where you need to make a change.

MAKE THE CHANGE

1. REDUCE YOUR CARBON FOOTPRINT

- ✓ Reduce the amount of electricity and water you use at home, and think about how your family sets your thermostat at home; each degree you turn it up in summer and down in winter can save you 10% in energy.
