

Earth Hour is the world's largest event which encourages action on climate change. Last year millions of people came together to protect our amazing planet.

And you can too!!

This Saturday, turn your lights off for one hour and try one of these!

1. Have a picnic in the dark on the carpet with your family!
2. Draw lots of endangered animals such as rhinos, pandas or tigers and then have a good laugh when you turn the lights on again!
3. Go for a walk with your parents and see if anyone else has all their lights off or look up at the sky and try and spot a shooting star!

WHAT EVER YOU DO-MAKE SURE YOU TAKE A PICTURE AND STICK IT IN YOU HOMEWORK BOOK
