

# FIVE THINGS TO ASK YOUR CANDIDATES

---

**Nature Needs You to put the planet at the heart of politics and make the environment a priority this UK General Election.**

What will you do to stand up for strong environmental protections and UK leadership on climate change?

Will you campaign for ambitious new policies to reduce the UK's carbon emissions and support green growth?

Will you call for a 25 year plan for the environment, so the next generation inherits a healthier nation?

Will you support a ban on the UK trade in ivory, so we play our part in tackling the elephant poaching crisis?

Will you ensure that, as we leave the EU, we maintain standards that protect wildlife and keep our beaches and rivers clean?
