Dear Governor,

Supporting our pupils on developing a sustainable school

Good news! The children in our school are keen to make our school greener and more sustainable. A number of children are hoping to take the lead on the Green Ambassadors programme supported by WWF. The Green Ambassadors will form the "[green team / eco-council etc...]" and will encourage the whole school community to work on realistic projects to save energy and water, improve their environment and get healthy too.

The Green Ambassadors programme and school sustainability issues will be discussed at the Governors' meeting on [date] at [venue].

We are planning a presentation on Green Ambassadors by a group of pupils on [date] at [venue] and you are warmly invited. If you would like to attend a "[green team / eco-council etc...]" meeting or get involved on a practical level do let us know.

If you would like to know more about the Green Ambassadors project please see here:
www.wwf.org.uk/greenambassadors

A sustainable school prepares young people for a lifetime of sustainable living, through its teaching, fabric and its day-to-day practices. It is guided by a commitment to care:

- Care for oneself (our health and well-being);
- Care for each other (across cultures, distances and generations); and
- Care for the environment (both locally and globally).

If you would like to know more about sustainability, please download useful materials for governors at:
<http://publications.education.gov.uk/default.aspx?PageFunction=productdetails&PageMode=publications&ProductId=DFES-00445-2007>

If you have any comments, ideas or questions please get in touch.

Yours sincerely
