

STRONGER TOGETHER FOR CLIMATE ACTION

#pandahub

INVITATION

WWF and the International Council on Clean Transportation invite you to the ELECTRIC VEHICLES GLOBAL LEADERS' FORUM

SYNOPSIS

- It's the beginning of the end for conventional cars. Eight governments have made commitments to end the sale of fossil fuelled vehicles. The plummeting costs of EVs, similar to renewables, make them a technology where we can afford to go further and faster to support the goals of the Paris Agreement. But who is leading the way? Which policies are effective and which are not? How is charging infrastructure being financed? And what are the implications of EVs for power grids and employment?
- This event will take the form of a ministerial keynote address, followed by facilitated discussion on key issues for electric vehicles, closing with an audience Q&A.

KEYNOTE SPEAKER

Roseanna Cunningham

Cabinet Secretary for the Environment, Climate Change and Land Reform, Scottish Government

WHEN

10:00-11:15, Sunday 12 November 2017

WHERE

WWF PandaHub, Bonn Zone, COP23
