RAINFOREST INSPIRED CUT-OUT COLLAGE

GET MAKING

30 mins

6-12 yr olds

indoor fun

Create a colourful paper cut-out collage inspired by tropical rainforests to celebrate some of the most biodiverse habitats on earth and the rich variety of life found there.

What you'll need:

- A piece of recycled cardboard
- Recycled magazines or wrapping paper
- Scissors
- Glue

GET SOCIAL

We're a social bunch here at WWF so please share your creative makes with us on social media by tagging @WWF_UK and using the hashtag

#LearnToLoveNature.

Alternatively, you can email us at education@wwf.org.uk. We'd love to see your work!

Instructions

1. Look through an old magazine and rip out pages which have bright colours or patterns that appeal to you.
2. Once you have collected a pile of colourful paper, research plants and flowers that are found in tropical rainforests. Carefully cut out these shapes. You may want to draw pencil guides first.
3. Arrange the shapes on the cardboard and when you are happy with your design stick them down. You could add folds into some of the shapes to create a 3-D effect.
4. Add your own drawings of rainforest animals to complete the image.
