# HOW TO PLAY

## GAME SET UP AND AIM

- Cut up the Wildlife Forbidden Words cards that you find in the next pages. These are going to form your deck.
- Divide group into teams (e.g. Team A and Team B - or spice it up with some wildlife related team names!)
- Place the deck in the middle of the table, and each team chose a Clue-giver.
- Team A starts: the Clue-giver sets a 1 minute timer, picks up the first card, and starts giving clues to encourage their teammates to guess the wildlife word, without mentioning the 5 Forbidden Words. For every card correctly guessed Team A gets a point, but if a Forbidden Word is mentioned or the teammates can't guess the wildlife word, the Clue-giver must discard the card. The game continues until the timer runs out and then it is Team B's turn to play.
- The game ends when the deck ends, or when a set amount of points is reached, or when the laughs take over!

## GAMEPLAY

- The team that is not guessing words must watch for Forbidden Words or other violations of the rules and can stop the game if any rule-breaking occurs.
- To easily count points, put the card correctly guessed into a Point Pile. Each team should have its own Point Pile. Each card in the Point Pile represents 1 point.

## RULES

- Clue-givers must not use Forbidden Words. They can't use abbreviations or any part of the Forbidden Word.
- No sound-effects, nor gestures. This is not charades!
- If the Clue-giver doesn't know the meaning of a word, they can pass and discard this card.
- When the timer is finished, the last card drawn (if not guessed) must be discarded.
