## FINANCIAL REVIEW

#### **OPERATING STATEMENT**

	Year ended 30 June 2022	Year ended 30 June 2021 (Restated*)
	£m	£m
Incoming resources excluding gifts in kind	90.9	84.0
Gifts in kind	0.1	0.3
Incoming resources	91.0	84.3
Costs of raising funds and reorganisation costs		
Cost of raising funds	22.8	20.6
Reorganisation costs	0.2	
	23.0	20.6
Net income available for charitable purposes	68.0	63.7
Expenditure on charitable activities		
Averting dangerous climate change	6.4	5.4
Creating a sustainable food system	6.6	7.3
Restoring threatened habitats and species	27.3	23.4
Growing support	18.8	19.3
Strengthening our priority WWF partner offices	1.4	1.1
Building capacity in the network	6.1	5.2
WWF Network priority support projects	2.5	
Gifts in kind attributable to charitable activities		0.3
	69.1	62.0
Net (expenditure)/income before gains on investments	(1.1)	1.7
Net (loss/)gain on investment assets	(1.1)	2.9
Net (expenditure)/income	(2.2)	4.6
Fair value movements on cash flow hedges	0.1	
Net (decrease)/increase in reserves	(2.1)	4.6

<sup>\*</sup>Prior year expenditure on charitable activities has been restated to reflect the reallocation of some costs previously reported under Creating a Sustainable Food System to Restoring Threatened Habitats and Species.

#### INCOME

Total income for the year for the Group (comprising WWF-UK and WWF-UK (World Wide Fund For Nature) Trading Ltd) increased by £6.7m (8%) from £84.3m in the previous year to £91.0m.

#### MEMBERSHIP AND DONATIONS FROM INDIVIDUALS

Income from individuals increased by £1.1m from £42.8m to £43.9m. This was partly attributable to an increase in the income from direct debit giving. Donations from individuals also benefited from funds raised through the Art for Your World project (see page 27 for further details). Against this, one-off giving was less this year owing to the fact that the previous year included income from an appeal in response to fires in the Amazon.

#### CORPORATE DONATIONS AND INCOME

Income from our corporate partnerships increased by £2.0m from £14.9m to £16.9m. This is attributable to the launch of our new partnership with Aviva (further details are provided on page 28) which is funding climate change work in the UK and in Canada. This was partly offset by the fact that last year's income included a payment to cover the remaining period of our current partnership with Sky. Corporate donations and income also includes our continuing partnerships with HSBC, Reckitt and Tesco.

#### AID AGENCIES AND GOVERNMENT GRANTS

Income from aid agencies and government grants is detailed in Note 4 to the accounts. The increase of £1.1m includes new funding from the FCDO for the improvement of water resource management in Pakistan and funding from the Department for Business, Energy and Industrial Strategy (BEIS) for accelerated climate transition programmes in Kenya, Malaysia and Peru.

#### LOTTERY PROMOTIONS

Income from lottery promotions reduced by £1.8m to £0.3m as no lottery income was received from People's Postcode Lottery as grants were instead received from the Postcode Planet Trust which receives its funding from People's Postcode Lottery. The remainder of the lottery income was raised via WWF-UK's own lottery which we launched in early 2021.

#### CHARITABLE TRUSTS

Income from charitable trusts increased by £4.1m to £8.6m. We received £4.0m from the Postcode Planet Trust, which receives its funding from People's Postcode Lottery.

#### **EXPENDITURE**

The cost of raising funds increased by £2.2m to £22.8m. This was mainly due to an expansion of face-to-face fundraising activities as the UK emerged from the pandemic. However, the cost of fundraising as a proportion of income (excluding gifts in kind) remained constant at 25%.

There was an increase of £7.1m (11%) in our charitable activity expenditure, from £62.0m to £69.1m. This was mainly attributable to increased expenditure on the following programmes, all of which are listed in Note 5 to the accounts:

- An increase of £1.4m in our work in east Africa, most of this being related to the launch of the Land for Life programme described on page 24.
- An increase of £1.1m in our work in the Amazon described on page 24, which includes work funded by Reckitt aimed at working with communities to protect and restore the environment in the Tapajos river basin in Brazil.
- An increase of £0.9m in our contribution to the funding of the WWF International Secretariat, to support its conservation work and its programme offices. This increase mainly reflects the fact that activities at WWF International in the prior year were impacted by the Covid pandemic. In 2021/22, activity levels were able to return to normal.

33

An increase of £0.9m in the wildflower projects funded by Reckitt.

- An increase of £0.8m in our seagrass work in the UK as described on page 25.
- An increase of £1.0m in our work in Nepal, which focuses on the surveying and management of
  critical habitats for snow leopards and tigers and on working with communities to enhance their lives
  and enhance biodiversity.
- An increase of £0.5m in funding of the Coral Rescue Reef Initiative, a global initiative led by WWF
  which aims to conserve coral reefs around the world with the best chance of surviving the threats posed
  by climate change.

#### **BALANCE SHEET AND RESERVES**

The net expenditure for the year of £2.2m, offset by £0.1m gain in cash flow hedges, resulted in a reduction in total reserves from £68.8m to £66.7m.

The decrease in total reserves consisted of a decrease of £7.1m in unrestricted funds (to £33.1m), an increase of £5.3m in restricted funds (to £28.1m) and a decrease of £0.3m in the value of endowments (to £5.5m).

The reduction in unrestricted funds comprised decreases in general reserves of £6.0m (see below) from £22.8m to £16.8m, and £1.2m in designated reserves (including unrestricted funds held as fixed assets) from £17.2m to £16.0m.

The decrease in designated reserves is detailed in Note 21 to the accounts below. The decrease of £6.0m in general reserves can be summarised as follows:

#### Reserves

	£m
General reserves at 1 July 2021	22.8
Net expenditure in unrestricted funds	(7.2)
Decrease in designated reserve for fixed assets	0.6
Decrease in designated reserve for the Living Planet Centre	0.4
Decrease in designated reserve for Wild Isles	0.2
General reserves at 30 June 2022	16.8

WWF-UK's reserves policy requires that general reserves are reviewed on at least an annual basis to ensure they are at an appropriate level and sufficient to protect programmatic expenditure in the short term from any sudden drop in income.

Applying the assumptions set out in the policy, we have reviewed the requirement for general reserves and decided to retain a range of between £12m and £16m (approximately 10 to 13 weeks of budgeted unrestricted funds expenditure).

The free reserves level at the end of the year was reduced to less than £1m above the top of the target range for free reserves. This was broadly in line with what had been planned for the year, particularly the investment in a number of strategic projects aimed at enhancing elements of our programmatic work and our engagement with supporters and the public.

Fixed assets (including investments) decreased by £1.7m and net current assets by £0.4m as a result of the net expenditure for the year detailed above.

#### **INVESTMENTS**

WWF-UK's investment policy is to maintain the real value of our investments and to maximise income by way of a diversified portfolio consistent with the trustees' legal powers and duties. This is underpinned by our socially responsible investment policy, which promotes the principles of sustainable development and improvements to the environment and is designed to ensure there is no exposure to investments that may be inconsistent with our mission and objectives. A large range of potential investments are excluded on this basis, including any investments in the fossil fuel industry, the extractives industry or the aviation sector, while also taking into account positive, socially responsible, environmental and governance investment criteria. All equity investments are screened to ensure the portfolio complies with our investment policy.

#### **GOING CONCERN**

The financial forecasts for the next three years project that the organisation has sufficient cash and cash investments and reserves to continue to operate. The financial projections have been prepared on the basis of a number of scenarios so the organisation is prepared for different levels of potential impact with regards to the economic environment risks. Robust monitoring processes are in place to ensure that the organisation is able to react quickly to any downturn in income and the free reserves of the organisation are held in cash and liquid investments in order that these may be liquidated quickly in the event that they are required. Accordingly, the trustees are of the opinion that it is appropriate for the financial statements to be prepared on a going concern basis.

### PRINCIPAL RISKS AND UNCERTAINTIES

The trustees are responsible for ensuring WWF-UK has a sound system of internal control to safeguard its assets and funds, and for ensuring its assets and funds are used only in furtherance of WWF-UK's objectives. The system of internal control is intended to manage appropriately rather than eliminate risks and to give reasonable rather than absolute assurance.

The trustees exercise their responsibilities through their board meetings and the meetings of the committees of the board described on page 40. The system of internal control includes:

- Our FY22-FY24 strategy was approved by trustees and came into effect on 1 July 2021. The strategy covers the overall aims and objectives of the organisation and is used as a basis for annual planning, monthly progress reviews by the Executive Group and quarterly progress reviews by trustees.
- A new operating model was established during 2021/22 and is now fully embedded. It ensures clear governance and decision-making at the right levels and emphasises the importance of programme and project management excellence. Key to the effectiveness of the operating model are the Goal Boards which ensure that projects are focused on our strategic goals and that decisions are made in line with the strategy. Goal Boards review project reports every month, through which they monitor delivery and financial performance, and manage risks and issues.
- The Strategic Delivery Group and the Restricted Funds Group. These forums sit above the Goal Boards and Goal Boards can escalate risks and issues to them. Among other responsibilities, these groups ensure there is adequate assessment and escalation of risk and focus on delivery of the strategy.
- Annual performance targets and delivery plans, with actual performance and finances monitored monthly against those plans.
- A risk management framework. Project level risks are managed by project managers. Strategic risks are managed by Goal Boards. The most serious strategic risks are captured on the organisational risk register. Risks are monitored monthly by Goal Boards, escalated as needed and formally reviewed on a quarterly basis by the Executive Group and the Audit Committee. At each quarterly review meeting, there is scrutiny of the top risks and of the controls in place and further actions are identified where necessary. The top risks reported to the Executive Group and Audit Committee are summarised (right).
- An internal audit programme with findings, progress reviews and management actions regularly reported to the Executive Group and the Audit Committee. Reporting includes internal audits of programme offices carried out by WWF International and WWF-US.
- A scheme of delegation from the trustees to the chief executive and thereon to managers clearly defines the scope of authority delegated by the trustees and which matters are reserved to the board.
- Procedures to monitor and evaluate the effectiveness of expenditure on conservation programmes and the achievement of outputs and outcomes.
- An environmental management system to ensure we monitor and manage our own impact on the environment. The system is audited by an independent assessor. We are committed to transparency by publishing annually our performance against the targets we set ourselves.

Risk	Mitigation
Cyber	All laptops have antivirus software and are managed centrally to deploy security updates.
Critical cyber attack could take down our systems, resulting in	Limited number of systems exposed to the internet, all filtered through firewall access control lists.

significant and sharp reduction in fundraising and audience engagement.	Improving due diligence processes in respect of partners and suppliers we contract and work with.
and didicine engagement.	<ul> <li>Continued progress in the review and improvement of the various operational and programmatic standards that are in place for the WWF network.</li> </ul>
	<ul> <li>Approval processes for external communications to ensure they are consistent with our brand and strategy.</li> </ul>

#### Safeguarding

Incidents could affect communities we work with and colleagues in WWF and partner organisations.

- A robust Environmental and Social Safeguarding Framework across the WWF network, including a safeguards screening tool, a tiered mechanism for communities to raise complaints and grievances, and a global response protocol for escalating serious complaints. Mandatory training has been rolled out to all WWF staff and trustees. A global safeguards unit is responsible for implementing and maintaining the safeguards framework.
- A WWF network Conservation Quality Committee (CQC), with representation from WWF-UK, reviews and signs off on high-risk projects and landscape safeguards plans.
- WWF-UK has a Safeguarding Committee with a safeguarding director and designated child safeguarding officer who are responsible for oversight of WWF-UK's safeguarding framework. WWF-UK's child and vulnerable adult safeguarding policies and processes have been updated and the governance framework strengthened. There are two trustees with safeguarding experience on the board and a Lead Safeguarding Trustee has been appointed. For the conservation projects WWF-UK supports, safeguarding assessments are undertaken to ensure the views of local people are reflected in project planning, implementation and monitoring.

#### Strategy

There are many global risks that are difficult for WWF-UK to mitigate, including unpredictable political contexts in countries where we fund priority work, and a lack of global political ambition to address the biodiversity and climate crises.

- Regular communication with our key partners in the network to keep a watching brief on risks and issues, leveraging our network to develop mitigations and advocacy actions.
- Regular review of WWF-UK portfolio versus strategic intent.
- $\bullet$  Influencer stakeholder mapping and relationship building with key strategic sectors and governments.

#### **Delivery**

There are many global risks that can hinder delivery of programmatic work we are funding overseas (Covid, natural disaster, civil unrest, conflict, political opposition).

- Providing funding to build capability in other WWF offices.
- $\bullet$  Liaising closely with other WWF offices to monitor local circumstances.
- Supporting WWF offices to strengthen staff safety policies and develop frameworks to support defenders.
- Strong coalition-building approach with civil society and Indigenous peoples' organisations.
- Planning for different political scenarios.

### GOVERNANCE

#### STRUCTURE

WWF-UK is a charity registered with the Charity Commission for England and Wales (Registration No. 1081247) and the Office of the Scottish Charity Regulator (Registration No. SC039593). It is also a company limited by guarantee registered in England and Wales (Registration No. 04016725). It was founded in 1961 and was formerly known as the World Wildlife Fund. Its objects and powers are set out in its Memorandum and Articles of Association. The objects of the charity remain as follows:

The promotion of conservation of the natural environment and the sustainable use of natural resources and ecological processes, to include without limitation, fauna and flora, water, soils and other natural resources.

The promotion of education in nature conservation, the natural environment and the sustainable use of natural resources.

The promotion and support of scientific and educational studies, research projects and publication of scientific and educational works.

WWF-UK's commercial activities are undertaken by its wholly-owned trading subsidiary, WWF-UK (World Wide Fund for Nature) Trading Limited. All taxable profits are donated under Gift Aid to WWF-UK. WWF-UK (World Wide Fund for Nature) Trading Limited was incorporated as a company in 1966 to conduct trading activities in support of WWF-UK's charitable objectives. The company is registered in England and Wales (Registration No. 00892812). The principal activities are the licensing of the WWF logo, lottery activity, retail activities and corporate sponsorships. Details of transactions between WWF-UK and its subsidiary are included in Notes 20 and 28 to the accounts.

Two non-operational subsidiaries, WWF Global Climate Action Lottery Limited and WWF Thriving Habitats and Species Lottery Limited, were dissolved during the year.

#### WWF NETWORK

WWF-UK is part of the WWF global environment network which is coordinated by WWF-World Wide Fund for Nature, a Swiss foundation, based in Gland, Switzerland. Sir Dave Lewis is ex officio a member of the board of WWF-World Wide Fund for Nature and Tanya Steele is a member of the WWF Network Executive Team. Stephen Hay is a member of the Audit Committee of WWF-World Wide Fund for Nature. Within the network we influence and support policy and programme priorities, working with our WWF colleagues worldwide to achieve our objectives. A large portion of our programmatic activity takes place overseas through local WWF offices and other partners to whom we provide funding. We adhere to the WWF network's core standards and global values. In the UK, we run programmes alone or in partnership with funders and other complementary organisations. In addition, we undertake campaigning and advocacy activity to further our objectives. Details of transactions with related parties are included in Note 28 to the accounts.

#### **TRUSTEES**

The board of trustees is the governing body for WWF-UK.

It comprises up to 15 unpaid trustees, as listed on page 82 (who are also the directors and members of WWF-UK for the purposes of company law). The board is responsible for setting policy, agreeing strategy, oversight of risk management and controls, monitoring performance and approving major commitments based on advice from senior management, and the appointment of the chief executive. Day-to-day operations are delegated by the board to the chief executive, who leads the Executive Group.

The Articles of Association of WWF-UK provide that trustees may be appointed for two periods of up to three years at a time extendable up to a maximum of nine years, although in practice trustees usually serve for a maximum of six years. The chair of the WWF-UK board is appointed for a six-year term of office.

Each of the trustees is required to disclose actual or potential conflicts of interest to the chair and company secretary for inclusion on the trustee register of interests. None of the trustees receive any remuneration for their work as a trustee, but may be reimbursed for reasonable expenses incurred in the course of their duties. The board adheres to the Charity Governance Code and conducts regular external assessments of its effectiveness.

The board has four principal committees: the Programme Committee; the Finance and Business Committee; the Audit Committee; and the Nominations and Remuneration Committee. Membership of all these committees is detailed on page 82 of this report. The committees meet regularly and report back to the board on key topics discussed and any decisions taken.

The Programme Committee advises the board of trustees on the current effectiveness and future strategic direction of WWF-UK's global conservation programmes and advocacy and campaigns activities.

The Finance and Business Committee is responsible for providing advice and recommendations to the board on the financial management and strategic direction of the organisation, the monitoring of progress against targets and the oversight of the financial management and performance of the organisation. The committee has a sub-committee, the Investment (and Pensions) sub-committee, to assist its work principally around the organisation's investments and pension provision.

The Audit Committee is responsible for exploring the significant risks to the organisation and evaluating the steps taken to minimise those risks including internal controls, risk management and compliance reporting (including safeguarding). It considers and evaluates the work of the internal and external auditors.

The Nominations and Remuneration Committee is responsible for undertaking the recruitment and selection process for trustees and for recommending new trustees to the board for approval and the remuneration of, and succession planning for, senior executives of WWF-UK.

A detailed skills and diversity audit of the board was conducted in August 2020 and updated in December 2021. This regular exercise informs the recruitment of new trustees to the board. Trustee positions are widely and openly advertised and searches carried out among a range of networks in order to attract a diverse range of candidates. A full equality impact report for new trustee recruitment is presented to the Nominations and Remuneration Committee. New trustees are provided with a mentor from the existing board to assist them in the transition to their new role. Each new trustee attends a series of induction sessions, where they learn about the organisation and the role and responsibilities of a trustee and meet the chief executive and members of the Executive Group. New trustees also receive an induction pack including Charity Commission guidance on The Essential Trustee; WWF-UK's governing documents; and the most recent annual report and financial statements.

#### STATEMENT OF TRUSTEES' RESPONSIBILITIES

The trustees (who are also directors of WWF-UK for the purposes of company law) are responsible for preparing the trustees' annual report and the financial statements in accordance with applicable law and United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards).

Company law requires the trustees to prepare financial statements for each financial year. Under company law the trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the charitable company and the group and of the incoming resources and application of resources, including the income and expenditure, of the charitable company and group for that period. In preparing these financial statements, the trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that
  the charitable company will continue in business.

The trustees are responsible for keeping adequate accounting records that are sufficient to show and explain the charitable company's transactions, disclose with reasonable accuracy at any time the financial position of the charitable company and enable them to ensure the financial statements comply with the Companies Act 2006, the Charities and Trustee Investment (Scotland) Act 2005, the Charities Accounts (Scotland) Regulations 2006 (as amended) and the provisions of the charity's constitution.

They are also responsible for safeguarding the assets of the charity and the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the trustees are aware:

- there is no relevant audit information of which the charitable company's auditor is unaware; and
- the trustees have taken all reasonable steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information.

The trustees are also responsible for the maintenance and integrity of the corporate and financial information included on the charitable company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Members of the charity guarantee to contribute an amount not exceeding £10 to the assets of the charity in the event of winding up. The total number of such guarantees at 30 June 2022 was 12. The trustees are members of the charity but this entitles them only to voting rights. The trustees have no beneficial interest in the charity.

#### S172(1) STATEMENT

The trustees are required to outline how they have met the requirements of \$172(1) of the Companies Act 2006 in acting to promote the success of the charity to achieve its charitable purposes. This includes having regard to the likely long-term consequences of its decisions, interests of its stakeholders, employees, the impact of its operations on the wider community and the environment and the desirability of the charity maintaining a reputation for high standards of business conduct.

WWF-UK recognises it cannot achieve its mission on its own. Collaboration and working in partnership with its stakeholders are essential to tackle the triple challenges of meeting the dietary and other needs of up to 10 billion people, keeping global temperature rise below 1.5°C and reversing biodiversity loss. We consider all our actions against these long-term strategic goals as well as our more immediate three-year strategy.

Our supporters, including members of the public, donors, philanthropists and corporate partners, enable us to raise the funds we need to deliver our critical work. We also work closely with our suppliers to ensure that as an organisation we live up to the environmental principles we promote. We would not be able to achieve our mission without our dedicated staff. We set out below how WWF-UK engages with its different stakeholders, listens to their views and takes into account their interests in order to better achieve its charitable objectives.

#### **EMPLOYEES**

At WWF-UK, we know the delivery of our mission relies on the work of our talented and motivated people. Our talent management approach includes the setting of clear leadership standards that reflect our core values, regular performance and development reviews (PDRs) and a suite of learning and development. All this is designed to underpin our approach to work allocation, performance and development, ensuring all our people are set and measured against clear objectives. Work is scheduled in line with our strategic goals and outcomes, and our ways of working are aligned with our values and designed to create an inclusive culture. Individuals and line managers work together to ensure that career aspirations and development needs are identified and addressed.

The trustees and Executive Group encourage widespread consultation and exchange of information at all levels of the organisation. We have an active and influential Employee Forum which ensures our compliance with the requirements of the Information and Consultation (I&C) Regulations 2004.

In addition, the Executive Group leads weekly all-staff 'Get Together' sessions to inform staff about our work, initiatives and planned changes. We are committed to measuring employee engagement – we run an annual survey – and building and delivering on action plans to respond to employee feedback. We consult with colleagues on strategic and transformational change through focus groups and surveys. At WWF-UK we value diversity and are committed to equity and inclusion. We understand the value of an inclusive approach in which all colleagues can learn, contribute and challenge safely, and we recognise the value that different perspectives bring to the work we do in the UK, and across the world as part of our global network. Our inclusion agenda is informed and shaped by our DE&I ambassadors and active network groups.

#### **SUPPLIERS**

WWF-UK's procurement team works closely with key suppliers to ensure that supplies meet objectives and achieve good value for money while also fulfilling environmental and ethical sourcing practices. WWF-UK continues to adhere to the ISO20400 standard for sustainable procurement and continues to utilise a sustainable procurement questionnaire for sourcing our high value contracts, to assess the sustainability credentials and solutions proposed by the suppliers we engage.

The questionnaire is additional to an eco-questionnaire that is used to assess the products we purchase; it evaluates the supplier organisation as a whole, not just the delivery of goods or services for WWF-UK, and thus offers a holistic and responsible approach to procurement. The procurement team continues its efforts to reduce the cost of supply, develop the diversity and quality of our supply solutions and eliminate products and services from our supply chain that may be environmentally detrimental.

#### CORPORATE PARTNERSHIPS AND PHILANTHROPIC DONORS

Building strong relationships and frequent communication is key to the success of our corporate partnerships. We create formal governance and decision-making structures and schedule regular meetings to allow for ongoing review of progress, feedback on partnership performance, and to provide a forum for discussing current and emerging issues.

We regularly conduct partnership reviews, often through third-party independent support, to stand back and assess the progress of our partnerships, identify challenges and opportunities, and ensure our partnerships are delivering the impact we need and expect. We collaborate with our corporate partners to share insight about their customers and how they can engage them further in actions for environmental issues, through the ongoing research WWF does with consumers. Private events/opportunities are also held for philanthropic donors to speak to or meet with key WWF-UK staff, to ask questions and discuss WWF's work. Information is published in the IATI registry on the grants we receive from public sector donors.

#### **SUPPORTERS**

Supporters are at the heart of our work and we regularly ask them for feedback on our work and the services we provide, to continually improve what we do. Supporter-facing teams continuously collect complaints, criticisms and compliments from supporters, and pass this feedback on to colleagues to improve our services and our fundraising campaigns.

Surveys and workshops are frequently conducted with our supporters to understand their motivations, feedback on services we provide, and help develop new ideas. We seek feedback on our campaign communications to make sure they are compelling and relevant for our supporters. We also regularly test new ideas and receive feedback from supporters on our fundraising products, so we can keep growing and optimising our portfolio in a way that inspires our supporters.

To ensure our supporters are empowered, use their talents and are supported, the movement building team has developed principles and ways of working that ensure each campaign we deliver provides space for new and existing supporters to engage in the most appropriate way.

#### SCHOOLS AND YOUNG PEOPLE

Our children are living in the world we have created and are affected by the impacts of biodiversity loss and climate change. WWF has a key role to play in educating and inspiring young people, so they can survive and thrive in this changing world. Our support for young people is informed and led by our Youth Ambassadors. The Youth Ambassadors support and inspire their peers to use their voices by developing and taking part in campaigns. They have attended and spoken at climate events and shared their stories online. Working with the Scout Association, we inspired millions of young people around the world to take individual actions to reduce climate change, through #PromiseToThePlanet. We enabled the voices of young people in the UK to be placed at the heart of COP26 in the Forest of Promises. We supported the production of an award-winning documentary that featured six young climate activists from across the globe.

WWF works closely with partners in WWF network offices, and environmental and education organisations to deliver programmes informed by evidence. We have developed a new sustainable careers programme, which provides careers advice, skills development programmes and inspirational speakers from businesses. Working with the Reading Agency, we inspired half a million children visiting libraries across the UK. We developed new curriculum-linked primary and secondary school resources, and hosted on our own and partner websites enabling a wide pool of teachers to access them. WWF's climate change resources and plastics resources are the most downloaded topics. Our virtual Live Learning programme has grown significantly and we now reach more than 60,000 students annually. We have significantly grown our teacher audience over this year, and have put new systems in place systems to monitor the diversity of our teacher and pupil audiences.

#### RECIPIENTS OF OUR FUNDING

WWF-UK is in regular communication with colleagues across our WWF network partner offices, coordinated through regional teams in Conservation Programmes. We enter into Partnership Agreements with key WWF offices, where we hold ourselves to account against a set of mutually agreed partnership principles which include trust, equity, shared goals, risks and accountability.

#### LOCAL COMMUNITIES IMPACTED BY OUR CONSERVATION WORK

A stronger framework for community involvement and safeguarding in our conservation work has been implemented across the whole WWF network. This includes a safeguards screening tool to identify risks and promote community engagement, a tiered mechanism for communities to raise complaints and grievances, and a global response protocol for escalating serious complaints. This is coupled with staff training, capacity building and strengthened guidance, including guidance on working with Indigenous people.

In order to embed this framework into the day-to-day approaches of all WWF offices, we have developed a thorough training course that challenges teams to give more time to planning and implementing projects and programmes explicitly in partnership with local communities. A WWF-UK safeguards expert has supported further training on how the formal safeguards process can be used to enable local communities to be involved in planning, implementation and monitoring.

As a result of our work on safeguards in general we see a greater focus on community consultation as part of planning, so that their input is informing programme design and implementation. One example of this is the Defra-funded programme in the south of Kenya and north of Tanzania where WWF teams and local partner organisations piloted participatory planning approaches, writing up their findings from this process as a guide to share with the wider WWF network. Recognising that improving our practice takes time, WWF-UK continues to set aside additional funds for direct support on working with local communities and Indigenous peoples to other WWF offices.

#### OTHER NGOS WWF-UK WORKS WITH

WWF-UK is working in close partnership on *Wild Isles* with both RSPB and the National Trust, to develop and deliver a broad public engagement campaign for the restoration of UK nature around a BBC TV series. We are collaborating on public engagement, communications, mobilisation, private sector advocacy and political influencing, with shared funds, governance and stakeholder management. The *Wild Isles* programme will also bring in the sector more widely, with an invitation to support and engage with the delivery of the People's Plan for Nature in 2023.

WWF-UK is a leading member of various coalitions that work closely together on policy, advocacy and campaigning in and beyond the UK.

The Climate Coalition and its equivalents in the other nations of the UK bring together hundreds of organisations of all sizes to campaign on engaging ever more people to raise their voices on climate action

The Wildlife and Countryside LINK and its sister LINK organisations in the other nations of the UK bring together hundreds of organisations to work collectively for the protection of nature.

The Bond network connects 400 UK-based organisations with a worldwide presence, working on international development, including the interconnections between protecting the environment and supporting sustainable development.

Beyond the UK, the WWF network also works as a core part of the Climate Action Network (CAN) – a worldwide network of over 1,300 NGOs in more than 130 countries. In the UK, WWF is part of CAN-UK, the UK node of CAN.

This year, WWF-UK has also joined the Warm This Winter coalition – a group of leading anti-poverty and environmental organisations – to campaign for practical measures to tackle the cost of living crisis through an environmentally sustainable energy future.

In all these cases, WWF is a leading voice in forming, shaping, resourcing and delivering policy, advocacy and campaigning, in collaboration with many others, to make us more than the sum of our parts. All these coalitions work hard to evaluate and learn from our work, and ensure we continue to develop and grow and become more effective on these critical issues.

#### **ENVIRONMENTAL MANAGEMENT**

In carrying out our mission to safeguard the natural world by building a future in which people and nature thrive together, we seek to minimise the environmental impact of our activities. As an environmental charity, it's vital to us that we reduce these impacts to a minimum. To achieve this, we have an Environmental Management System in place, and maintain certification to ISO 14001 – an internationally recognised and independently audited environmental standard that is awarded only after rigorous appraisal. Our certification recognises a commitment to environmental excellence and involves a process of continuous monitoring and targeted improvement.

Our largest impacts relate to business travel, producing our communications and fundraising materials, and electricity consumption in our offices. Some of these were significantly reduced as a result of the pandemic and are steadily increasing as we return to our offices.

To manage our travel, we have a Sustainable Travel Policy and a carbon budgeting and tracking process for air travel. Our Paper, Timber and Print Purchasing Policy stipulates criteria for sustainable paper and timber products and for the printing process. We closely monitor all paper and timber products purchased by WWF-UK. We monitor our electricity use in all office locations, and compare the energy used at the Living Planet Centre to the Better Building Partnership good practice benchmark for offices. Other environmental impacts we target, monitor and work to improve include procurement, single-use plastics, water, waste and recycling.

We have a set of detailed environmental goals which include a science-based target consistent with a 1.5°C level of global warming, to reduce our carbon emissions from all activities by 46.2% by 2030, using the year ended 30 June 2019 as a baseline. We have also put in place processes to ensure no avoidable single-use plastic is used in our products, operations and supply chain.

You can find our full annual sustainability report, environmental policy and environmental goals on our website.

#### STREAMLINED ENERGY AND CARBON REPORTING

The following data has been externally verified by EnviroSense Consulting Ltd.

Our FY22 (July 2021–June 2022) Sustainability Report will be available in November 2022. WWF-UK does not have Scope 1 emissions.

	Current performance FY22 (2021-22)	Past performance FY21 (2020-21)		
Energy consumption used to calculate emissions – electricity	England – 572,564 Scotland – 8,635	England – 558,913 Scotland – 7,912		
(kWh)	Wales – 5,401	Wales – 5,079		
Emissions from combustion of	England – 121.6	England – 118.7		
purchased electricity (Scope 2) (tonnes CO2e)	Scotland – 0	Scotland – 1.7		
(torrites coze)	Wales – 1.1	Wales – 1.1		
Total gross Scope 2 emissions (tonnes CO2e)	123	121		
Intensity ratio for the above gross emissions (Scope 2)	0.30	0.31		
Intensity ratio: tonnes CO2e per full-time equivalent staff				
Emissions from reimbursed business travel in rental cars or employee-owned vehicles (Scope 3) (tonnes CO2e)	2.3	1.3		
Emissions from other business travel including air, rail and road (Scope 3) (tonnes CO2e)	56.7	0.5		
Methodology:	GHG Reporting Protocol – Co	rporate Standard		
Electricity emissions reduction actions taken in FY22	<ul> <li>Review of monthly Building Management System and meter readings, enabling areas of high use to be identified and settings altered in all three offices.</li> </ul>			
	All new technology and app performance to ensure usage			

#### **CHARITY GOVERNANCE CODE**

WWF-UK continues to adhere to the Charity Governance Code. When the Code was updated in 2020, we reviewed if any changes needed to be made to our practices. The changes to the Integrity principle are being addressed through the roll-out of WWF network values, as well as planned improvements to our safeguarding policies, processes and governance. The changes to the Equality, Diversity and Inclusion principle are being addressed through our ongoing Programme for Positive Change.

In line with the Charity Governance Code, we conduct an external review of the board every three years. Our last review was in 2021. The findings were reported to the board in October 2021 and the action plan put in place to address the recommendations is largely complete. Governance is also reviewed on an annual basis as part of the end of year assurance process.

#### **GRANT-MAKING POLICY**

At WWF-UK we make grants in line with our charitable and strategic objectives, to partners in the WWF network and other conservation organisations. We assess partners and programmes for their ability to deliver outcomes and uphold our social and environmental values. Many grants are made to long-running conservation programmes, the outcomes of which are reviewed at regular periods. All grants are subject to specific agreements with partners which define the policies, standards and practices they are required to adhere to, including social policies and safeguards.

All our WWF network offices have sub-grantees who co-implement parts of many projects and programmes. During the last year, WWF-UK has continued its work on due diligence. This work includes documenting and tracking alignment to WWF's policies, standards and practices across WWF offices and sub-grantees. In this way we seek to ensure that the whole funding chain is adhering to WWF good practices.

#### **PUBLIC BENEFIT**

WWF-UK promotes education in nature conservation, the natural environment and the sustainable use of natural resources and ecological processes.

We conserve natural resources and ecosystems because we know the health and biodiversity of our environment is inextricably linked to people's wellbeing, both in the short and long term. We campaign to limit climate change to protect people from the impacts which the warming of our planet is already bringing, such as extreme weather events, rising sea levels and adverse effects on food production. We promote and support scientific and educational studies, research and projects and publication of scientific and educational works in order to raise public awareness of environmental issues and enhance the effectiveness of our work. Our beneficiaries are the general public. Much of our scientific research, policy and advocacy work has been able to continue despite the Covid-19 pandemic, although some field conservation work both in the UK and overseas has inevitably been impacted by international and national travel restrictions at various points during the year.

In continuing to review our charitable objectives and as part of planning our future programme of work, the trustees of WWF-UK have taken account of the Charity Commission's published guidance on the Public Benefit requirement under the Charities Act 2011 and have considered how our planned programme of work will contribute consistently to the charity's aims and objectives for the benefit of the general public.

#### FUNDRAISING STANDARDS AND APPROACH

We continue to be members of the Chartered Institute of Fundraising (IOF) and the Fundraising Regulator, and champion and adhere to the excellent standards set out by the Code of Fundraising in all areas of our fundraising. We are committed to the Fundraising Regulator's Fundraising Promise, and continually strive to ensure our fundraising is open, honest, legal and respectful.

In order to raise funds and awareness of our work cost-effectively and allow supporters to get involved in ways that suit them, we rely on a variety of different activities, including: fundraising face-to-face and over the telephone, through letters and emails, and by television, digital and press advertising; from legacies, events and community fundraising; and from philanthropists, trusts, foundations, public sector bodies and corporate partners.

We work with professional fundraising agency partners, along with our in-house fundraising teams, to speak to potential and existing supporters, both face-to-face and over the telephone. As a result of these conversations, many are inspired to start a regular committed gift, generating significant income to support our conservation work. We require any professional fundraising agencies working on our behalf to adhere to our fundraising standards and this is enshrined in our contracts with them.

We also work with a number of strategic corporate partners who support our work through financial and non-financial donations, as well as employee and customer fundraising. Our material strategic corporate partnerships are subject to due diligence and review by the Restricted Funds Group and appropriate Goal boards to ensure effective oversight.

#### Monitoring of fundraising activities and protecting people in vulnerable circumstances

We have processes in place, endorsed by our board of trustees, which govern our fundraising activities. In addition, we have comprehensive compliance and quality control frameworks that we use to monitor adherence to the General Data Protection Regulations (GDPR), the behaviour of agencies, their staff and our in-house teams and fundraisers, and the conversations they have on our behalf, with both supporters and members of the public. This includes thorough due diligence and audit, regular training sessions, shadowing and mystery shopping, site visits, call listening, quality control calls, and monitoring of outcomes, complaints and remedial actions. Our aim is to ensure that our supporters feel informed, thanked and inspired by all interaction we have with them.

We are committed to ensuring that we treat the public sensitively and respectfully at all times, taking special care to protect people who may find themselves in vulnerable circumstances. Our fundraiser training, delivered to both professional and in-house fundraisers, contains a section designed to ensure they are aware of the signs of potential vulnerability, as well as the steps we expect them to take on the occasions they do have concerns. This approach is in line with the requirements of the Charities (Protection and Social Investment) Act 2016, the IOF's Treating Donors Fairly Guidance, and the Direct Marketing Association's Guidelines for Dealing with Vulnerable Consumers. This year we have also reviewed and updated our safeguarding policies and processes for people in vulnerable circumstances.

#### **Complaints**

In 2022, we consolidated and further embedded our complaints policy and process within the organisation. For the financial year ending 30 June 2022, we received 56 complaints (2021: 21) from members of the public about our fundraising activities.

We have chosen to report those where: we were approached by someone to raise a concern about our fundraising activities; there has been a potential breach or a lapse in standards in relation to our fundraising; an investigation has been instigated; or where we have received an expression of dissatisfaction relating to our use of specific fundraising methods. We have nothing to report in respect of failures and/or breaches, which we have taken to include complaints or breaches referred to, and upheld by, either the Information Commissioner's Office or the Fundraising Regulator.

#### REMUNERATION PHILOSOPHY, PRINCIPLES AND POLICY

The Nominations and Remuneration Committee of our board of trustees determines the chief executive's salary and reviews this each year, in line with the principles set for the organisation's pay policy. This committee also approves annual recommendations made by the chief executive on any changes to the executive directors' salaries and benefits. The chief executive attends the Committee, but the chief executive is not present when their own remuneration is being discussed.

Reward and recognition at WWF-UK reflects the impact we all have on our objectives and our culture in a way that nurtures talent, is sustainable, and considers all aspects of what it means to work for the organisation. Our principles are about being fair, purpose driven, taking a holistic approach and being forward looking. Our reward policy is designed to be inclusive and transparent and to enable the attraction and retention of talent in our organisation.

Our senior executive team is remunerated in line with all staff in the organisation. All posts are evaluated using Mercer's job evaluation framework and pay is typically set within a pay range around the median of the marketplace for similar roles in comparable organisations. These include large UK charitable organisations of similar size and complexity to WWF-UK.

Individuals are recruited through a competitive process and appointed within the appropriate pay range for the post, depending on skills and competencies and evidence of behaviours being aligned with our core values.

Full pay equality impact assessments are conducted before each appointment, and specific attention is given to gender and ethnicity pay, so we can continue to reduce our pay gaps. Our organisation is accredited by the Living Wage Foundation, and we are committed to never paying our employees less than the real living wage.

The organisation typically reviews pay awards to all staff annually, and the approved budget for any pay increases for executives aligns with that for the whole organisation. The annual pay award is informed by the cost of living, market pay movements and affordability.

We are currently developing our reward and recognition programmes to enable greater engagement and motivation of colleagues, the impact of our work and to enhance our value proposition.

#### **GENDER PAY GAP**

WWF-UK first published its gender pay gap data as at April 2017 and reported a mean gender pay gap of 18.2% (median 16.8%). The latest published mean gender pay gap, for April 2021, was 12.2% (median 12.5%). Our gender pay gap continues to reduce and for our April 2022 data we will be reporting a mean of 8.0% (median 10.7%).

WWF-UK has not yet formally reported on the various ethnicity pay gaps. However, we have started to improve the collection and quality of our diversity data and are tracking and monitoring pay across the various race groupings, considering intersectional data too. Our median ethnicity pay gap for April 2022 was 3.0% and the mean was 8.0%.

Addressing all pay gaps is one of our key metrics for our organisational performance and we are committed to organise, select, recruit, reward and develop all staff on equitable and inclusive terms, taking positive action as needed to achieve equity.

#### INTERNAL AUDIT STATEMENT

Our internal audit team has assessed that the adequacy and effectiveness of the organisation's framework of governance, risk management and internal controls for the financial year ending 30 June 2022 provides reasonable assurance to support achievement of the organisation's objectives.

The trustees' report and strategic report were approved by the board of trustees on 20 October 2022 and were signed on their behalf by:

**Dave Lewis** 

Chair of the board of trustees

J. J. Lowis

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS AND TRUSTEES OF WWF-UK

#### OPINION

We have audited the financial statements of WWF-UK ('the charitable company') and its subsidiaries ('the group') for the year ended 30 June 2022 which comprise Group Statement of Financial Activities, the Group and Company Balance Sheets, the Group Statement of Cash Flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the group's and the charitable company's affairs as at 30 June 2022 and of the group's income and expenditure, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice: and
- have been prepared in accordance with the requirements of the Companies Act 2006 and the Charities and Trustee Investment (Scotland) Act 2005 and Regulations 6 and 8 of the Charities Accounts (Scotland) Regulations 2006 (amended).

#### **BASIS FOR OPINION**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### CONCLUSIONS RELATING TO GOING CONCERN

In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charitable company's or the group's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

#### OTHER INFORMATION

The trustees are responsible for the other information contained within the annual report. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

#### OPINIONS ON OTHER MATTERS PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion based on the work undertaken in the course of our audit

- the information given in the trustees' report, which includes the directors' report and the strategic report prepared for the purposes of company law, for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report included within the trustees' report have been prepared in accordance with applicable legal requirements.

#### MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

In light of the knowledge and understanding of the group and charitable company and their environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report included within the trustees' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 and the Charities Accounts (Scotland) Regulations 2006 requires us to report to you if, in our opinion:

- $\bullet$  adequate and proper accounting records have not been kept; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of trustees' remuneration specified by law are not made; or
- · we have not received all the information and explanations we require for our audit;

#### **RESPONSIBILITIES OF TRUSTEES**

As explained more fully in the trustees' responsibilities statement set out on page 41, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charitable company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

#### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

We have been appointed as auditor under section 44(1)(c) of the Charities and Trustee Investment (Scotland) Act 2005 and under the Companies Act 2006 and report in accordance with the Acts and relevant regulations made or having effect thereunder.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Details of the extent to which the audit was considered capable of detecting irregularities, including fraud and non-compliance with laws and regulations are set out below.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: <a href="www.frc.org.uk/auditorsresponsibilities">www.frc.org.uk/auditorsresponsibilities</a>. This description forms part of our auditor's report.

### EXTENT TO WHICH THE AUDIT WAS CONSIDERED CAPABLE OF DETECTING IRREGULARITIES, INCLUDING FRAUD

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We identified and assessed the risks of material misstatement of the financial statements from irregularities, whether due to fraud or error, and discussed these between our audit team members. We then designed and performed audit procedures responsive to those risks, including obtaining audit evidence sufficient and appropriate to provide a basis for our opinion.

We obtained an understanding of the legal and regulatory frameworks within which the charitable company and group operates, focusing on those laws and regulations that have a direct effect on the determination of material amounts and disclosures in the financial statements. The laws and regulations we considered in this context were the Companies Act 2006, the Charities Act 2011 and The Charities and Trustee Investment (Scotland) Act 2005, together with the Charities SORP (FRS 102). We assessed the required compliance with these laws and regulations as part of our audit procedures on the related financial statement items.

In addition, we considered provisions of other laws and regulations that do not have a direct effect on the financial statements but compliance with which might be fundamental to the charitable company's and the group's ability to operate or to avoid a material penalty. We also considered the opportunities and incentives that may exist within the charitable company and the group for fraud. The laws and regulations we considered in this context for the UK operations were General Data Protection Regulation (GDPR), anti-fraud, bribery and corruption legislation, taxation legislation and employment legislation.

Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the Trustees and other management and inspection of regulatory and legal correspondence, if any.

We identified the greatest risk of material impact on the financial statements from irregularities, including fraud, to be within the timing of recognition of income, end use of funds including funds granted to partner organisations and the override of controls by management. Our audit procedures to respond to these risks included enquiries of management, internal audit, and the Audit Committee about their own identification and assessment of the risks of irregularities, sample testing on the posting of journals, analytical review and sample testing of income, sample testing and review of grants made to partner organisations, reviewing accounting estimates for biases, reviewing regulatory correspondence with the Charity Commission, and reading minutes of meetings of those charged with governance.

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations (irregularities) is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it. In addition, as with any audit, there remained a higher risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations.

#### **USE OF OUR REPORT**

This report is made solely to the charitable company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006, and to the charitable company's trustees, as a body, in accordance with Regulation 10 of the Charities Accounts (Scotland) Regulations 2006. Our audit work has been undertaken so that we might state to the charitable company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charitable company and the charitable company's members as a body and the charitable company's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

Nicola May

Senior Statutory Auditor For and on behalf of Crowe U.K. LLP Statutory Auditor London 20 December 2022

## NOTES TO THE ACCOUNTS

#### 1. CHARITY INFORMATION

WWF-UK is a registered charity (No. 1081247 and SC039593) which is incorporated and domiciled in the UK. The address of the registered office is The Living Planet Centre, Rufford House, Brewery Road, Woking, Surrey GU21 4LL.

#### 2. ACCOUNTING POLICIES

#### **Basis of preparation**

The accounts have been prepared under the historical cost convention, with the exception of listed investments and forward currency contracts which are included on a market value basis. The accounts have been prepared in accordance with the Companies Act 2006, Accounting and Reporting by Charities: Statement of Recommended Practice applicable in the UK and Republic of Ireland (FRS 102) ('the SORP'), FRS 102: The Financial Reporting Standard applicable in the UK and Republic of Ireland ('FRS 102'), the Charities Accounts (Scotland) Regulations 2006 and the Charities and Trustee Investment (Scotland) Act 2005 and applicable United Kingdom accounting standards.

The particular accounting policies adopted by the trustees are described below.

WWF-UK constitutes a public benefit entity as defined by FRS 102 and detailed on page 47.

#### Going concern

As explained in the Trustees' Report, as per financial and cash flow projections, WWF-UK has sufficient cash and cash investments and reserves to continue to operate in all foreseeable circumstances. Accordingly, the trustees have a reasonable expectation that the charity has adequate resources and are of the view that there are no material uncertainties about the charity's ability to continue in operational existence for the foreseeable future. The accounts have therefore been prepared on the basis that the charity is a going concern.

#### **Basis of consolidation**

The statement of financial activities (SOFA) and balance sheet consolidate the financial statements of the charity and its subsidiary undertaking. The results of the subsidiary are consolidated on a line by line basis.

No separate SOFA has been presented for the charity alone, as permitted by Section 408 of the Companies Act 2006. The charity has taken advantage of the exemptions in FRS 102 from the requirements to present a charity only Cash Flow Statement and certain disclosures about the charity's financial instruments.

#### **Fund accounting**

#### • Unrestricted funds

These funds can be used at trustees' discretion in furtherance of the charity's objectives.

#### • Designated funds

Designated funds comprise unrestricted funds that have been set aside for particular purposes by the trustees. The aim and use for each designated fund is set out in the notes to the financial statements.

#### Restricted funds

These funds have been raised by WWF-UK for particular restricted purposes and include funds with specific project-related restrictions imposed by the donors as well as funds where the donor has specified a broad restriction, but not the specific projects to be funded. WWF-UK acts as a custodian of these funds and consequently they are not available for general use.

#### Endowment funds

These funds are held permanently by the trustees on behalf of WWF-UK and provide income that can be used for any of the charity's purposes.

#### Income

Income is recognised when the charity has entitlement, receipt is probable, and the amount can be reliably measured. Where income is received in advance of providing goods or services, it is deferred until the charity becomes entitled to the income.

Membership income and other donations from individuals and income from lotteries are recognised when received.

Legacies: residuary legacy income is recognised when received or, if earlier, when estate accounts are agreed. Pecuniary legacy income is recognised when notified.

Lottery income: in the prior year, WWF-UK received proceeds of lotteries held by People's Postcode Lottery (PPL). WWF-UK had no ability to alter the price of tickets, determine the prizes or reduce the management fee. As such, PPL was treated as acting as the principal. Net proceeds due to WWF-UK were recognised under lottery income in the statement of financial activities. The analysis of the proceeds is detailed in Note 32. For the current year, grants were received from the Postcode Planet Trust which receives its funding from People's Postcode Lottery. These are accounted for under charitable trust income.

WWF-UK also operates a separate weekly lottery. Income received in respect of these lotteries is recognised when the draws are made. Income received in advance for future lottery draws is deferred until the draw takes place.

Other income, including grant income, is recognised on an accruals basis when the charity becomes entitled to the resource.

Income from investments is included gross of tax and fees.

Gifts in kind are included at current market value where their value is ascertainable and material, with an adjustment based on the estimated worth to the charity.

#### **Expenditure**

All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category. Where costs cannot be directly attributed to a particular heading, they have been allocated to activities on a basis consistent with the use of the resource.

The analysis of charitable activities in Note 6 reflects the priority activities set out in the strategy.

Costs of raising funds are primarily those incurred in seeking voluntary contributions and other income.

In line with WWF-UK's strategic objectives, grants are made to partners in the WWF network and to other conservation organisations. These grants are performance-related, with mid-term reviews. Although future years funding is indicated, the binding commitment is for annual funding only. The full commitment of the grant is stated in Note 26.

Governance costs relate to compliance with constitutional and statutory requirements and have been included as support costs together with management and finance costs, HR costs, IT costs and premises and facilities costs.

#### **Foreign currencies**

Transactions in foreign currencies are recorded either at the rate of exchange on the date of the transaction or, in the case of expenditure at the rate at which corresponding foreign currency income was recorded. Foreign currency balances have been translated at the rates of exchange ruling at the balance sheet date.

#### **Financial instruments**

WWF-UK has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at the present value of future cash flows (amortised cost). Financial assets held at amortised cost comprise current asset investments, cash at bank and in hand, and the group's debtors, excluding prepayments. Financial liabilities held at amortised cost comprise the group's creditors excluding deferred income. No discounting has been applied to these financial instruments on the basis that the periods over which amounts will be settled are such that any discounting would be immaterial.

Investments, including bonds and cash held as part of the investment portfolio, are held at fair value at the Balance Sheet date, with gains and losses being recognised within income and expenditure.

Investments in subsidiary undertakings are held at cost less impairment.

WWF-UK enters into forward foreign currency contracts that do not qualify as basic financial instruments. These are held at fair value at the Balance Sheet date. Where hedging relationships are documented, they are accounted for using hedge accounting. Where the hedging relationship cannot be clearly documented, changes in fair value are recorded against the planned expenditure for the purchased currency.

#### Hedge accounting

WWF-UK enters into forward foreign currency contracts to hedge currency exposure on certain future expenditure. These are designated as hedging instruments in cash flow hedges. At the inception of the hedge relationship, the entity documents the economic relationship between the hedging instrument and the hedged item, along with its risk management objectives and clear identification of the risk in the item that is being hedged by the hedging instrument. Furthermore, at the inception of the hedge the Group determines and documents causes for hedge ineffectiveness. Note 19 sets out details of the fair values of the derivative instruments used for hedging purposes.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in fair value movements on cash flow hedges. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss. Amounts previously recognised in fair value movements on cash flow hedges and accumulated in equity are reclassified to profit or loss in the periods in which the hedged item affects profit or loss or when the hedging relationship ends.

Hedge accounting is discontinued when the Group revokes the hedging relationship, the hedging instrument expires or is sold, terminated or exercised, or no longer qualifies for hedge accounting. Any gain or loss accumulated in equity at that time is reclassified to profit or loss when the hedged item is recognised in profit or loss. When a forecast transaction is no longer expected to occur, any gain or loss that was recognised in fair value movement on cash flow hedges is reclassified immediately to profit or loss.

#### **Intangible assets**

Intangible fixed assets are stated at cost, net of amortisation and any provision for impairment.

Amortisation is calculated to write off the cost of intangible fixed assets by equal annual instalments over their expected useful lives as follows:

Contacts database system 7 years on a straight-line basis
Other software 5 years on a straight-line basis
Other intangible asset 3 years on a reducing balance basis

Amortisation is not charged on assets in the course of construction until they are complete and in use.

All intangible assets are reviewed for any indication of impairment and, where impairment is indicated, the value of the asset is reduced to reflect the estimated recoverable value.

Intangible fixed assets costing £3,000 or more, and where it is probable they will create future economic benefit, are capitalised.

#### Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost, net of depreciation and any provision for impairment.

Depreciation is calculated to write off the cost of tangible fixed assets by equal annual instalments over their expected useful lives as follows:

Freehold buildings 15 to 60 years over the expected remaining life

of the asset on a straight-line basis

Office furniture 8 years on a straight-line basis

Equipment 3 to 5 years on a straight-line basis

Leasehold improvements 3 to 10 years over the remaining life of the lease

on a straight-line basis

All tangible fixed assets costing £3,000 or more are capitalised.

#### Investments

Investments are stated at market value.

The statement of financial activities includes the net gains or losses arising from revaluations and disposals of investment assets during the year.

#### Stock

Stock is valued at the lower of cost and net realisable value.

#### **Debtors**

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

#### **Current asset investments**

Current asset investments are bank balances held on deposit and are not available for immediate access. They have a maturity of one year or less.

#### Creditors

Creditors are recognised at their settlement amount after allowing for any trade discounts due.

#### Provisions

Provisions are recognised when the charity has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount can be estimated reliably. Provisions are measured at the present value of the expenditure expected to be required to settle the obligation.

#### Operating leases

Rental costs under operating leases are charged to the statement of financial activities in equal amounts over the periods of the leases, even if the payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are, similarly, spread on a straight-line basis over the lease term.

#### **Pensions**

WWF-UK administers a group personal pension plan through Aviva which is also a defined contribution scheme. Payments made by the charity on behalf of individual employees are charged to the Consolidated Statement of Financial Activities as incurred.

#### Significant areas of estimation and judgement

The preparation of the financial statements requires judgements, estimations and assumptions to be made that affect the reported values of assets, liabilities, revenues and expenses. The nature of estimation and judgement means that actual outcomes could differ from expectation. Significant areas of estimation and judgement include:

- Accrued legacy income is estimated based on the best information available at the balance sheet date.
- · Gifts in kind are recorded at market value and are adjusted to take into account the value to the charity.
- Intangible assets are stated net of any impairment provision.

#### 3. INVESTMENT INCOME

	2022	2021
	£′000	£′000
Dividends and fixed interest	643	580
Bank interest	26	19
Other interest	-	1
	669	600

#### 4. AID AGENCIES AND GOVERNMENT GRANTS\*

	2022	2021
	£′000	£′000
Major grants from aid agencies and governments include funds from:		
Foreign, Commonwealth & Development Office (FCDO)		
Forest Governance, Markets and Climate	638	490
Water Resource Accountability in Pakistan	448	-
CDC Water Risk Filter	85	86
Department for Business, Energy and Industrial Strategy (BEIS)		
Partnering for Accelerated Climate Transitions	291	-
Department for Environment, Food and Rural Affairs (Defra)		
IWT Challenge fund SOKNOT	111	-
Tackling IWT in Muslim communities in Sumatra	40	19
Sound Of Safety: Testing Pingers for River Dolphins and Fishers	28	-
NatureScot		
Nature restoration fund	67	-
British Council		
Expanding Horizons for Climate Action in Cities	10	90
Joint Nature Conservation Committee (JNCC)		
Latin American Landscape Restoration Work	10	-
United Nations Environment Programme (UNEP)		
Sustainable Blue Economy Finance Principles	37	25
Small Scale Funding Agreement	30	-
Total aid agencies and government grants	1,795	710

<sup>\*</sup>does not include institutional funding coming via a third party or WWF network office.

#### 5. GRANT AND PROJECT COSTS

Individual conservation projects and grants are grouped as programmes that reflect our key conservation priorities. Grants are made to other offices in the WWF network as well as other partners in the UK and internationally. This information is normally the basis of reporting to donors, including government agencies. All our grants are performance-related, with mid-term reviews.

	2022	2021
Organisation/Programme	£′000	£′000
WWF International		
WWF Network Support	5,354	4,488
WWF Network		
East Africa Savannahs	4,433	3,041

Total grants and projects expenditure (Note 6)	64,354	56,348
Support costs (Notes 6,7)	4,789	5,587
Total expenditure on grants and projects	69,143	61,935

#### 6. RESOURCES EXPENDED

	Activities undertaken directly	Grant funding of activities	Support costs	Total 2022	Total 2021 (Restated*)
	£'000	£'000	£′000	£′000	£′000
Averting dangerous climate change	4,016	1,898	440	6,354	5,403
Creating a sustainable food system	4,322	1,821	457	6,600	7,256
Restoring threatened habitats and species	5,129	20,269	1,890	27,288	23,407
Growing support	17,248	227	1,301	18,776	19,248
Strengthening our priority WWF partner offices	84	1,351	107	1,542	1,082
Building capacity in the network	322	5,354	422	6,098	5,197
WWF network priority support projects	29	2,274	172	2,475	-
Gifts in kind attributable to charitable activities	10	-	-	10	342
Total expenditure on charitable activities	31,160	33,194	4,789	69,143	61,935
Expenditure on raising funds	21,183	-	1,557	22,840	20,678
Reorganisation costs	157	-	-	157	-
Total expenditure	52,600	33,194	6,346	92,140	82,613

<sup>\*</sup>Prior year expenditure on charitable activities has been restated to reflect the reallocation of some costs previously reported under Creating a Sustainable Food System to Restoring Threatened Habitats and Species.

#### Basis for the support cost allocation

Support costs are allocated on a pro-rata basis according to the total cost of activities undertaken directly and grant funding of activities.

#### 7. SUPPORT COSTS

	Governance	Management & Finance	HR	IT	Premises & Facilities	Total 2022	Total 2021
	£′000	£'000	£′000	£′000	£′000	£′000	£′000
Charitable activities	836	(273)	1,282	1,370	1,574	4,789	5,587
Expenditure on raising funds	272	(89)	417	446	511	1,557	1,857
Total support costs	1,108	(362)	1,699	1,816	2,085	6,346	7,444

The decrease in support costs in the year is mainly owing to the fact there were foreign currency holding gains in the year of £1,3m, compared with currency holding losses of £0.9m in the prior year. This is offset by an increase in staff costs of £0.9m and Working For Your World goal costs of £0.5m.

Governance costs included £24,000 (2021: nil) gifts in kind related to pro bono legal services provided.

#### 8. STAFF COSTS

	2022	2021
	£′000	£'000
Wages and salaries	19,009	16,937
Social Security costs	2,012	1,790
Pension costs	1,823	1,631
	22,844	20,358

The above costs exclude 10 staff (2021: 6 staff) who were hosted by WWF-UK on behalf of Eating Better, WWF International, WWF-US, WWF-Netherlands, WWF-Brazil, WWF European Programme Office, WWF-Malaysia, WWF-Sweden and WWF-Singapore. Total cost £540,000 (2021: £384,000).

Included within staff costs above is £110,000 (2021: £34,000) relating to redundancy and termination costs. At the end of the year nil (2021: nil) was still to be paid.

There were no ex-gratia payments made during the year (2021: nil).

In addition, the cost of temporary staff in the year was £529,045 (2021: £381,544), of which £44,310 (2021: £136,409) was for staff hosted by WWF-UK on behalf of WWF-Malaysia.

Pension costs are allocated to activities on the same basis as those staff costs to which they relate.

The average number of employees during the year was 438 (2021: 413).

The average number of employees calculated on a full-time equivalent basis was:

	2022	2021
	Number	Number
Charitable activities	251	247
Generating funds	100	86
Support and governance	68	59
	419	392

The number of employees whose emoluments exceeded £60,000 in the year was:

	2022	2021
	Number	Number
£60,001 to £70,000	21	18
£70,001 to £80,000	17	18
£80,001 to £90,000	7	3
£90,001 to £100,000	-	3
£100,001 to £110,000	1	2
£110,001 to £120,000	4	-
£120,001 to £130,000	1	1
£130,001 to £140,000	-	-
£140,001 to £150,000	1	1
Total	52	46

Pension contributions for the 52 highest paid employees (46 in 2021) amounted to £422,845 (2021: £360,344).

The key management personnel of the charity are the members of the executive group in place during the year as referred to on page 83. The total employee benefits of the Executive Group were £1,084,383 (2021: £1,060,600).

The chief executive, Tanya Steele, received a gross salary during the year of £144,533 (2021: £141,522) and an employer's contribution to the pension scheme equivalent to 10% of the gross salary, as part of the organisation's standard pension programme.

#### 9. TRUSTEES' REMUNERATION AND EXPENSES

No trustee received any remuneration from WWF-UK during the year (2021: nil). During the year £22 was reimbursed to one trustee solely for travel costs incurred in attending and participating in meetings (2021: nil).

During the year the charity paid £5,176 (2021: £3,418) in respect of trustees' indemnity insurance on behalf of the trustees. No other costs were borne on behalf of any trustee.

#### 10. NET INCOMING RESOURCES FROM OPERATIONS

	2022	2021
	£′000	£′000
Net incoming resources from operations for the year are stated after charging:		
Auditors' remuneration:		
Fees payable to the charity's auditors for the audit of the charity's annual accounts	35	33
Fees payable to the charity's auditors for the audit of projects	2	12
Fees payable to the charity's auditors for the audit of the charity's subsidiaries	24	23
Fees payable to the charity's auditors for consultancy services	6	-
Total auditors' remuneration	67	68
Depreciation of tangible fixed assets	854	862
Operating lease rentals:		
Plant and machinery	10	12
Other	248	194
Total operating lease rental	258	206
Unrealised gain on foreign exchange translation	1,315	(920)

#### 11. INTANGIBLE FIXED ASSETS

Deferred income relates to amounts received prior to entitlement.

#### **18. FINANCIAL INSTRUMENTS**

The charity has certain financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at amortised cost. Certain other financial instruments are held at fair value, with gains and losses being recognised within the SOFA.

The charity has the following financial instruments:

Financial liabilities measured at fair value

Forward foreign currency contracts

	Group 2022	Group 2021	Charity 2022	Charity 2021
	£′000	£′000	£′000	£′000
Financial assets measured at amortised cost:

	£′000	£′000				
Amounts reclassified to hedge reserve	305	222				
Amounts reclassified from hedge reserve	(222)	(203)				
	83	19				

WWF-UK has entered into forward foreign exchange contracts to hedge the exchange rate risk arising from commitments to make WWF network support payments expected to occur and to affect profit or loss within the next financial year.

Forward foreign currency contracts are valued using quoted forward exchange rates and yield curves derived from quoted interest rates matching maturities of the contracts. Hedge ineffectiveness recognised in the year was £21,000 (2021: £12,000).

#### **20. SUBSIDIARY COMPANY**

WWF-UK has one active subsidiary company. The ordinary shares in the active subsidiary company, WWF-UK (World Wide Fund For Nature) Trading Limited (previously known as WWF-UK Trading Limited), are wholly owned by WWF-UK. The company is registered in England and Wales (Registration No. 00892812). The registered office is The Living Planet Centre, Rufford House, Brewery Road, Woking, Surrey GU21 4LL. During the year two dormant subsidiaries (WWF Global Climate Action Lottery Limited and WWF Thriving Habitats and Species Lottery Limited) were dissolved.

The main activities of the company during the year were receiving royalties licensing income from the use of the WWF logo, sponsorship income and miscellaneous trading activities.

The aggregate assets of the subsidiary company were £4,657,210 (2021: £3,781,274) and the aggregate liabilities were

£4,650,922 (2021: £3,774,986), resulting in shareholders' funds of £6,288 (2021: £6,288).

The taxable profits earned by the company are donated to WWF-UK and in the current year amounted to £2,404,695 (2021: £3,281,932).

A summary of the subsidiary company's trading results is shown below:

Profit and loss account	2022	2021
	£′000	£′000
Catalogue and retail sales	950	1,188
Corporate sponsorship and licensing	5,474	4,662

<sup>\*</sup>There are negative balances on the restricted funds for FCDO Pakistan WRAP (£1,000), Elephants (£431,000), Penguins (£210,000), Pandas (£129,000), Mountain gorillas (£39,000), Turtles (£41,000) and hosting costs (£27,000). This is due to the fact that future income is anticipated which will exceed the amount of the deficit balance.

#### PERMANENT ENDOWMENTS

The Kleinwort Endowment Fund was established in 1970. Income is available for the general purposes of WWF-UK. The fund is represented by fixed asset investments.

The Willingdon Memorial Fund was received by way of a legacy in 1991 and 1994. Income is available for the general purposes of WWF-UK. The fund is represented by fixed asset investments.

#### RESTRICTED FUNDS

Restricted funds are grants and donations given for specific purposes. They may be project-specific or more broadly restricted to a theme or country.

- 1. Other project, GAA and FCDO restricted donations are where the donor has specified the project to be funded and neither income nor expenditure exceeds £300,000.
- 2. Other broadly restricted donations are where the donor has specified the restriction, but not the project to be funded, and neither income nor expenditure exceeds £300,000.
- 3. Donations restricted to the Living Planet Centre were used for the construction of the headquarters.

#### DESIGNATED RESERVES

- The designated reserve in respect of the Living Planet Centre represents the unrestricted element of the net book value of the property. The transfer of £20,000 relates to additional VAT on prior years' capital expenditure.
- The fixed asset reserve represents resources invested in fixed assets other than the Living Planet Centre and which, as a result, are not available for other purposes. The transfer of £388,000 relates to capital investments net of disposals made during the year.
- The capital expenditure reserve represents resources allocated to cover future expenditure on major repairs and
  replacements for the Living Planet Centre building. This amount has been calculated on the basis of an independent
  professional assessment of likely future costs and is reviewed at regular intervals.
- The programmatic reserve includes funds received from the players of People's Postcode Lottery (PPL) which had not been spent by the year end and which, while not restricted funds, the organisation has determined should be designated for specific programmes including East Africa Savannahs, the Amazon, Climate and our Education and Youth work. It is planned that the carried forward amount will be fully spent during FY23. The transfer of £1,305,000 relates to previously designated funds that have since been funded by restricted funds.
- The Wild Isles reserve represents funds designated for a new television series venture with the BBC and RSPB due for release in 2023. WWF-UK has underwritten the costs associated with a share of the activity. The reduction in the reserve represents expenditure incurred on the project.
- $\bullet$  The investment reserve is to provide for foreseeable volatility in the value of the unrestricted fixed asset investments. This equates to 15% of the value of the portfolio excluding the endowments.

#### HEDGE RESERVE

The hedge reserve represents foreign currency forward currency contracts that are hedged against committed expenditure.

#### TRANSFER BETWEEN RESTRICTED AND UNRESTRICTED FUNDS

The funds in the public awareness project restricted fund have been spent as specified by the donors under this restriction. The fund has been transferred to unrestricted reserves as the expenditure was used on the creation of an unrestricted intangible fixed asset.

#### CHARITY STATEMENT OF FINANCIAL ACTIVITIES

The total income of the charity in 2022 was £87.3m (2021: £82.9m) and total expenditure was £88.4m (2021: £81.1m).

#### 22. ANALYSIS OF GROUP ASSETS AND LIABILITIES BETWEEN FUNDS

	Unrestricted funds	Restricted funds	Endowment funds	Total 2022	Total 2021
	£′000	£'000	£′000	£′000	£'000

Current liabilities	(11,132)	-	-	(11,132)	(10,346)
Net assets	33,080	28,075	5,568	66,723	68,846

#### 23. OPERATING LEASE COMMITMENTS

At the end of the year, WWF-UK was committed to making future minimum operating lease payments which fall due as follows:

	2022 Land and buildings	2022 Plant and machinery	2021 Land and buildings	2021 Plant and machinery
	£′000	£′000	£'000	£'000
Payments due:				
within one year	318	-	212	10
within two to five years	345	-	181	-
Total	663	-	393	10

#### 24. LEGACY NOTIFICATIONS

By the end of the financial year, WWF-UK had been advised of a number of legacies which indicated the charity as a beneficiary. These have not been included in the statement of financial activities as the charity's final entitlement has not yet been established by the executors. The initial indicated values for these legacies are estimated to be £15.6 million (2021: £13.7 million).

#### 25. GIFTS IN KIND

WWF-UK received gifts in kind during the year relating to the goods and services detailed below:

	£'000
Campaigning costs:	
Donation of internet search terms and social media advertising	133
Charitable activity costs:	
Consultancy	10
Support costs:	
Pro-bono legal services	24
Total gifts in kind received	167

#### **26. OUTSTANDING GRANT AWARDS**

WWF-UK aims to continue to provide funding to a number of programmes and projects subject to the delivery of obligations contained in the grant awards. The amount of grants outstanding at the end of the year that did not meet the definition of an accounting accrual is detailed below. Payment of the grants is contingent on the outcome of reviews of the programmes and therefore the liability has not been recognised at the year end. The commitments will be funded through general funds or restricted funding from individual and institutional donors. The funding of these commitments falls due as detailed below.

	2022 £'000	2021 £′000
Due within:		
1 year	28,836	7,500
2 years	21,662	3,823
3 years	4,680	2,769
4 years	1,182	1,120
5 years		358
	56,360	15,570

#### **27. CONTINGENT LIABILITIES**

In accordance with normal business practice, WWF-UK has provided indemnities to the executors of certain estates. These indemnities provide legal recourse to the recovery of any overpayments up to the total value of receipts by WWF. The maximum possible liability arising from indemnities outstanding at the balance sheet date was £1,537,973 (2021: £4,642,785) with the maximum indemnity period being 12 years.

Gift aid donation from subsidiary to WWF-UK	2,405	3,282
Loan from subsidiary to WWF-UK	1,500	1,000
Loan interest charged by subsidiary to WWF-UK	6	10
WWF-UK repayment of loan from subsidiary	1,506	1,010

#### 29. TAXATION

WWF-UK is a registered charity and as such is potentially exempt from taxation of its income and gains to the extent that they fall within the exemptions available to charities under the Taxes Act and are applied to its charitable objectives. WWF-UK (World Wide Fund For Nature) Trading Limited is subject to Corporation Tax but it remits by Gift Aid any taxable profit to WWF-UK.

#### 30. COMMITMENTS

At the year end, WWF-UK had no capital commitments.

#### 31. GUARANTEE

WWF-UK is a company limited by guarantee and each trustee has agreed to contribute up to £10 towards the assets of the company in the event of it being wound up.

#### 32. PEOPLE'S POSTCODE LOTTERY (PPL) INCOME

During the prior year WWF-UK received the proceeds of lotteries held by PPL. WWF-UK had no ability to alter the price of tickets, determine the prizes or reduce the management fee. As such, PPL was treated as acting as the principal, and so only net proceeds due to WWF-UK were recognised under lottery promotions in the statement of financial activities. For the current year grants were received from the Postcode Planet Trust which receives its funding from People's Postcode Lottery. These are accounted for under charitable trust income.

The net proceeds included in lottery income for the prior year are analysed as follows:

	2021
	£′000
Ticket value	6,311
Prize fund	(2,525)
Management fee	(1,767)
Net proceeds received	2,019

Total funds	64,174	84,359	(82,613)	-	2,926	68,846

<sup>\*</sup>There are negative balances on the restricted funds for HSBC water programme (£24,000), Anne Reece Bhutan for Life (£23,000), Arctic (£32,000), Mountain gorillas (£18,000) and hosting costs (£1,000). This is due to the fact that future income is anticipated which will exceed the amount of the deficit balance.

#### 35. PRIOR YEAR ANALYSIS OF GROUP ASSETS AND LIABILITIES BETWEEN FUNDS
